Introduction

The Online Work Habit Skills Evaluation System is designed to replace the paper-based Work Habit Skills Evaluation process and to improve the efficiency of the evaluation process for instructors, administrators, and students.

The Work Habit Skills System automates the process of monitoring, recording, and reporting student professionalism, focus, and overall goal achievement. It provides a collaborative environment in which Peer Group Instructors may score and provide reinforcing comments to guide students and help them achieve success. Students may view their personal Work Habit Skills Report on a regular basis to view ongoing evaluation scores and constructive feedback.

Procedures necessary to become familiar with and use the system consist of: **[1] System Setup**; and **[2] Daily Use**.

Setting up the system and preparing it for daily use involves:

1. Registering Students
2. Creating and Managing Sessions
3. Managing Students

Steps necessary for interacting with the system on a daily basis include:

1. Selecting an Active Session
2. Selecting Student Evaluation Forms
3. Interacting with Student Evaluation Forms

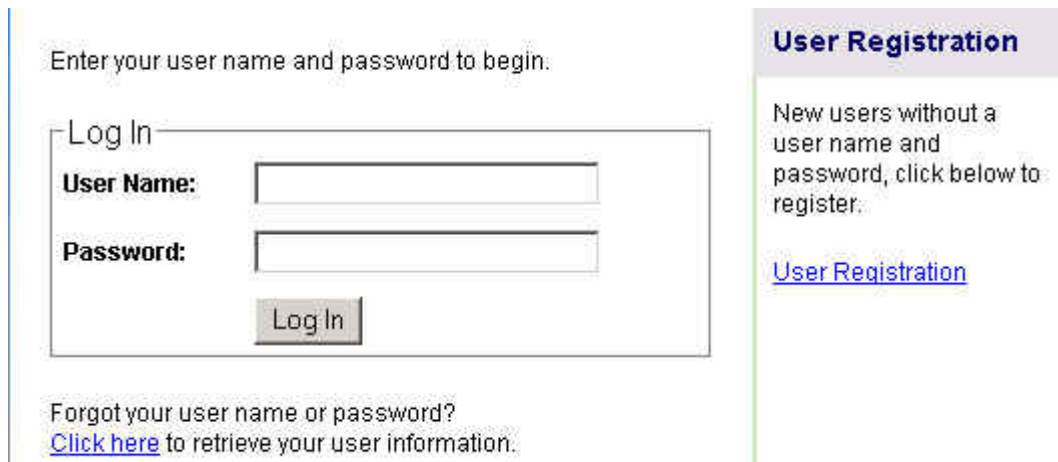

System Setup

Registering Students

The Work Habits System is accessed through the Immersive Learning Management System (LMS). Before students can view learning material through the LMS or be evaluated within the Work Habit Skills System, they must be registered. Registration can take place in one of two ways: students may use the self-registration interface, or instructors may register multiple students at one time.

Student Self-Registration

[1] Students without a user name and password can self-register by browsing to <http://www.immerse2learn.com/lms/login>. The self-registration process should take only a few minutes. From the Log In screen, new users click the 'User Registration' link on the right side of the screen.

Enter your user name and password to begin.

Log In

User Name:

Password:

Log In

Forgot your user name or password?
[Click here](#) to retrieve your user information.

User Registration

New users without a user name and password, click below to register.

[User Registration](#)

[2] On the next page, enter your organization's **Subscription Code** in the appropriate field. Code entries are case sensitive. Click the 'Go' button to continue.

For example, the registration code used for all Oakland Schools students is:

EOAK2100

New User Registration

If you already have a user and password, [login here](#) before entering your subscription code.

If you have a subscription code, enter it here, then select 'Submit Code' . . .

Subscription Code

. . . **OR** continue without a code.

[3] All the information on the Registration Form should be completed. Click the ‘Submit’ button to continue.

[login](#)

Oakland Schools New User Registration

Instructions: Complete as much information as you can. If you are unsure about an entry, leave the field blank. When all information is complete, select the Registration button to continue.

First and Last Name:	<input style="width: 100%;" type="text"/>
Home School:	<input style="width: 100%;" type="text"/>
Cluster:	<input style="width: 100%;" type="text"/>
Grade Level:	<input style="width: 100%;" type="text"/>
Email Address:	<input style="width: 100%;" type="text"/>
Create a User Name:	<input style="width: 100%;" type="text"/>
Select a Password:	<input style="width: 100%;" type="text"/>
Verify Password:	<input style="width: 100%;" type="text"/>

[4] After the student information is processed successfully, the user is returned to the Log In screen. A message confirms that the registration process was successful.

Welcome stud2! Your registration was successful. Enter your user name and password below to continue.

Enter your user name and password to begin.

[User Registration](#)

Registering Multiple Students

Instructors can register multiple students at one time using the User Manager. The User Manager can be accessed using the appropriate link in the 'Course Tools' section of the My Immersive screen.

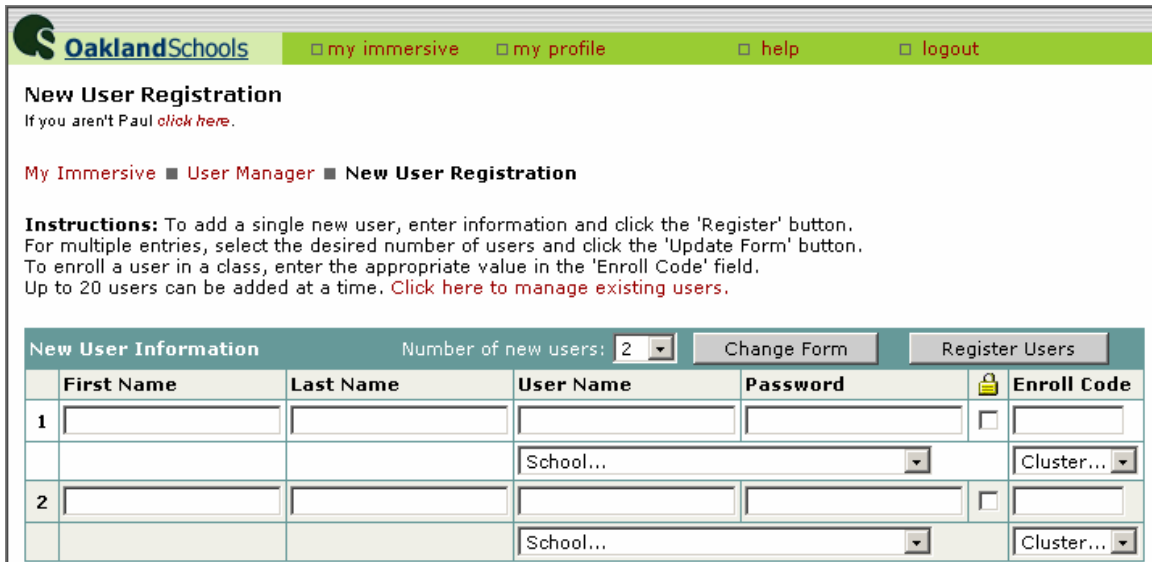

[1] Select the 'Add New User' button to register new students. Students should only be registered one time. Registered students appear on the 'Current Users' list.

[2] To register multiple new students, select the number of students and click the ‘Change Form’ button to refresh the screen. Not all students need to be registered at the same time. Additional user rows can be added to the form by selecting the ‘Change Form’ button at any time. However, **if the form is reduced in size, user information may be lost.**

All required user information should be complete before continuing. The ‘Lock Password’ checkbox and Enroll Code entry are optional. Rows can be left blank, but partial entries will be rejected.

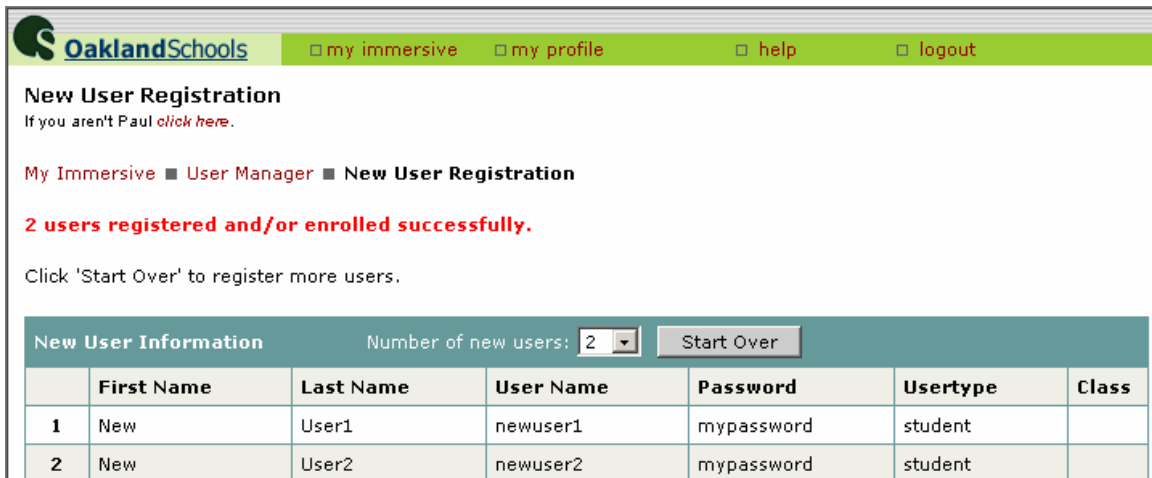

New User Registration
If you aren't Paul [click here](#).

My Immersive ■ User Manager ■ **New User Registration**

Instructions: To add a single new user, enter information and click the 'Register' button. For multiple entries, select the desired number of users and click the 'Update Form' button. To enroll a user in a class, enter the appropriate value in the 'Enroll Code' field. Up to 20 users can be added at a time. [Click here to manage existing users](#).

New User Information		Number of new users: 2	Change Form	Register Users		
	First Name	Last Name	User Name	Password	<input type="checkbox"/> Lock Password	Enroll Code
1					<input type="checkbox"/>	
			School...			Cluster...
2					<input type="checkbox"/>	
			School...			Cluster...

[3] After all the desired user information is entered, select the ‘Register Users’ button to continue. If any information is missing, or some other error occurs, a message will appear with instructions to resolve the problem. If the registration process was successful, a confirmation screen appears. Additional users can be registered by selecting the ‘Start Over’ button.

	First Name	Last Name	User Name	Password	Usertype	Class
1	New	User1	newuser1	mypassword	student	
2	New	User2	newuser2	mypassword	student	

Logging In

Students and instructors launch Work Habits from the appropriate desktop icon, by inserting a program disc, or by logging in at <http://www.immerse2learn.com>. From the Log In screen, enter your user name and password. User name and password entries are case sensitive.

Note: Instructors that do not have a user name and password, or have forgotten their log in information, may contact their system administrator or Immersive Engineering for assistance. Immersive representatives may be contacted at (248) 865-2001, option 1, or by email at support@immerse2learn.com.

Enter your user name and password to begin.

My Immersive

After logging in, the My Immersive page is displayed. My Immersive provides access to profile settings, learning material, various course, class, and student management tools, and the Work Habits System. Instructors and students select the ‘Work Habits’ link from the list of available Course Tools on the right side of the screen.

Setting Up and Using the Work Habit Skills System

[1] To access the **Work Habits Manager**, select the ‘Work Habits’ link from the Course Tools on the right side of the My Immersive screen. If this link does not appear, make sure the Campus and Cluster selections are entered correctly in your Profile. If you are still unable to access the Work Habits Manager, you may contact Immersive Engineering at (248) 865-2001, option 1, or support@immerse2learn.com.

[2] **Work Habit Sessions** are created by clicking the ‘New Session’ tab. Registered students may be assigned to a session after it is created. Complete all the information on the new session form. Multiple sessions may be created for different groups of students.

The instructor that creates a session becomes the Peer Leader for that session. The Peer Leader is responsible for maintaining session parameters, including adding and removing students from the session. A regular Peer (instructor) may modify the scores and comments on the Work Habit Skills Forms for all students assigned to the session. Generally, regular peers include instructors that share the same campus and cluster as the Peer Leader.

[3] To **add or remove students in a session**, click on the ‘Manage Students’ link. A list of available students will appear. Check or uncheck the box next to each student that will be added or removed from the session. Click ‘Update Session’ to save the selections.

Using Work Habits On A Daily Basis

At this point you should have one or more Work Habits sessions created, with a number of students assigned to each of these sessions. Once your sessions are set up, the Work Habit Skills Evaluation System is ready for routine reporting and communication.

The Session Report

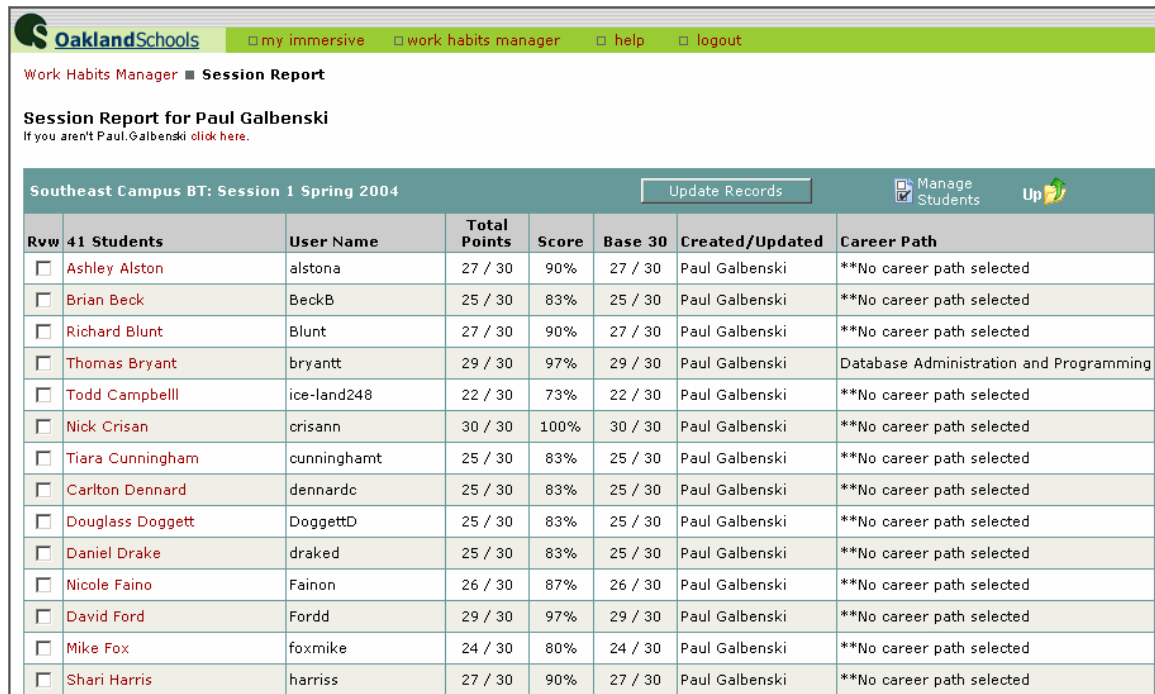

[1] **Log in** to the system and select the ‘Work Habits’ link as described above.

[2] From the **Work Habits Manager**, select the ‘My Sessions’ tab, if not already selected. To access the Session Report, select the desired **Session name**.

Session Name	Time	Term	Year	Instructor	Jump to . . .	+/-
Southwest Campus: BMMT Session 1	AM	Fall	2003-04	Moses Lukwago	20 Students	20
Southwest Campus: BMMT Session 2	PM	Fall	2003-04	Moses Lukwago	17 Students	17

[3] The **Session Report** screen displays a summary of the current Work Habit Skills Evaluations for each student in the session. To **edit, view, or add comments** to an existing form for a student, click the student’s name.

Work Habit Skills Evaluation Form

[1] Each student starts with a **maximum score** (3) for each of the primary 10 Work Habit Skills categories. Each score may be changed by selecting the appropriate radio button.

[2] Comments may be provided for each of the **Work Habit Skills Evaluation categories**. Categories are selected by clicking the desired category name. When a category is selected, the appropriate sub-categories and comment selections are displayed in the comment section of the form. By selecting the “Does” or Does not” prefix of a sub-category, a **pre-defined comment** will automatically be added to the report. Unique comments also may be entered into the comment field provided.

[3] Select the ‘Submit Form’ button when the desired scores and comments are completed **for each category**. The input will be stored and may be reviewed by others, including students. Forms can be modified at any time by the Peer Leader, peer instructors, or students until the form is ‘closed’ for review.
